PROFILE

Recent Computer Engineering graduate with High Honors, AWS Certified Solutions Architect – Associate, and experience in full-stack development and cloud infrastructure. Strong foundation in backend and frontend technologies through academic and internship projects. Skilled in building responsive web applications and deploying them to cloud environments. Actively seeking junior software/cloud engineering roles to apply technical and problem-solving skills in real-world development environments.

SKILLS

React.js, Node.js, JavaScript, Python, HTML, CSS, Tailwind, C, C++, SQL, AWS API Gateway, Lambda, Cloud Infrastructure (AWS), Infrastructure as Code (IaaS), Network Security and Management, Data Analysis, Microsoft Excel. Effective Communication.

EDUCATION AND CERTIFICATIONS

- Bachelors of Science in Computer Engineering**, Atilim UniversityOct 2020 – Jun 2024 | Ankara, Turkey
- Graduated with a GPA of 3.49, Obtained highest grade possible in courses like DSA, Algorithms, OOP, Database Design and Management, Networks, Data Science, Machine Learning and many other courses.
- AWS Solution Architect - Associate**, Amazon Web ServicesMay 2025
- CompTIA Network+ Certification**Jan 2025

PROFESSIONAL EXPERIENCE

- Survey Programmer**, Ventures Middle East - Abu Dhabi, UAEMar 2025 – present
- Programmed and deployed online surveys by using scripting languages and survey platforms, ensuring logic accuracy and user responsiveness.
 - Performed QC (Quality Control) on collected data, identifying inconsistencies and ensuring data accuracy prior to delivery.
 - Automated repetitive processes through scripting to improve efficiency and reduce errors.
- Computer Engineer Intern**, Way On IT Solutions - Al Ain, UAEJun 2023 – Aug 2023
- Developed the front-end of an e-commerce website using HTML, CSS, and JavaScript.
 - Implemented interactive features to enhance the user experience and functionality of the website.
 - Assisted in debugging and performance optimization.
- IT intern**, Royal Horizon LLC - Al Ain, UAEJul 2022 – Aug 2022
- Set up and configured 20+ employee devices, including laptops and peripherals.
 - Resolved 10+ hardware, software, and network issues weekly.
 - Participated in deploying and upgrading IT systems and software.

PROJECTS

- Dayra - A Serverless Web App**
- Developing a full-stack web app hosted on AWS using a serverless architecture. Backend powered by AWS Lambda, API Gateway, Cognito (auth), DynamoDB, and S3. Building a responsive frontend with React to deliver a dynamic user experience. Continuously iterating and exploring improvements.
- Dubai Real Estate Value Estimator**
- Developed a full-stack web app to estimate Dubai property values using a Python machine learning model.
 - Implemented the backend using Flask and built an interactive front-end with HTML, CSS, and JavaScript.
 - Integrated a user survey to gather property details and provide value estimates.
